

GERMANY TRANSFERRING MEN TO MEET THE ALLIES-AUSTRIA Still Refuses to Give Up Territory-Turks Claim to Have Sunk French Ship

GERMANS HAVE REACHED PORT OF GREAT PERIL

Dare Not Weaken Either Front to Strengthen Other.

Must Find New Armies to Meet Growing Enemies.

(By Times Special Cable.) London, March 19.—The apparent failure of Field Marshal Von Hindenburg's various attempts to reach Warsaw; the reappearance of German troops on the East Prussian frontier near Tilsit; and the allied offensive in the west, has, according to British observers, put Germany in a position where she dare not shift any substantial forces from either the east or the west. While there are rumors of reinforcements being hurried from Poland to France or Belgium to meet the French and British thrust, military writers in London hold to the opinion that Germany must maintain her present armies in both areas of fighting frontally intact. This will necessitate the finding of new forces for both the east and the west, if she would effectually meet the increasing strength of her enemies. It is pointed out that the plan of delivering a crushing blow in one theatre and then rushing, was seen first in the dash to Paris, second in the rush for Calais, third in the battle of Ypres, and then repeatedly in the east as Field Marshal Von Hindenburg sought to break through the Russian lines to the Polish capital.

Considerable mystery, therefore, surrounds the next move of the Germans, although the prevailing belief here is that it will be a big offensive in the west, probably against the British front.

BLOCKADE IN THE MEDITERRANEAN

(By Times Special Cable.) London, March 19.—Considerable confusion has resulted from the varied interpretation of the language in the note of Foreign Secretary Grey concerning the effect the British blockade would have on Mediterranean waters.

To clear this up the Foreign Office says specifically that Mediterranean waters are regarded as European waters, and that consequently the blockade will be maintained there just as in the North Sea.

HAS POOR OPINION OF THE CONTROLLERS

Alfred Peebles, at Conference, Refuses to Favor Two-Year Term For Them.

Old Story About Illegality of Board of Control Now Proves to Be True.

The latest proposal of the Legislative Committee, that after a year in the future be elected for two years instead of one, in receiving serious attention from Mayor Walters and the Board of Control, as well as the senior members of the City Council. At a conference last evening, prior to the meeting of the Property Committee, Alderman Peebles, Nicol, Garson and Hodgson, also Controller Robson, talked the matter over and it was unanimously agreed that it would be unwise to include the Board of Control in the scheme.

While last year's mayor and controllers and a few of the city officials were informed last June that under the Municipal Act the Board of Control was not entitled to a Board of Control through the Government, the Board of Control was not entitled to a Board of Control through the Government.
